

Léonard Rudl

Technical Game Designer
Student Looking For
Internship

PROFILE DESCRIPTION

Curious by nature, I'm looking to improve my skills and challenge myself on new projects, technologies and ideas. I'm convinced that efficiency at work is compatible with starting and ending the day with a smile.

- Acquired general baccalaureate specializing in sciences: math, physics/chemistry, and life and Earth sciences.

Interests

Basketball

I played basketball for over 10 years. This sport has helped me to develop teamwork and comprehension of others' expectations.

Learning languages

I started to learn new languages by developing my English in middle school. Since then, I keep learning languages such as Spanish, Portuguese, Japanese and Chinese.
